## PROFESSIONAL SUMMARY

Versatile Full-Stack Web Developer and Data Professional with 12+ years of experience managing large-scale data systems, ensuring zero-discrepancy accuracy, and delivering actionable insights in high-compliance environments. Certified in HTML/CSS, JavaScript, ReactJS, and MySQL with a portfolio of deployed web applications. Background in U.S. Army and Marine Corps administration provides a disciplined, security-conscious foundation ideally suited for roles requiring clearance eligibility, data integrity, and technical problem-solving. Passionate about building clean, functional web solutions and translating complex data into meaningful outcomes.

## CORE COMPETENCIES

• <b>Full-Stack Development:</b> HTML/CSS, JavaScript, ReactJS, MySQL	• <b>Data Analysis &amp; Reporting:</b> KPI tracking, trend identification, dashboards
• <b>Database Management:</b> MySQL design, CRUD applications, data integrity	• <b>Records &amp; Data Management:</b> Zero-discrepancy systems, high-volume workflows
• <b>UI/UX &amp; Responsive Design:</b> Mobile-first layouts, interactive interfaces	• <b>Security Clearance:</b> Eligible — U.S. Veteran, federal compliance background
• <b>Version Control:</b> Git/GitHub, project documentation	• <b>Stakeholder Communication:</b> Translating technical findings to non-technical audiences

## TECHNICAL SKILLS

**Languages & Frameworks:** HTML5, CSS3, JavaScript (ES6+), ReactJS, MySQL

**Tools & Platforms:** Git, GitHub, VS Code, Microsoft Office (Excel, Word, Outlook, Teams)

**Development Focus:** Responsive web design, CRUD applications, data dashboards, UI/UX, RESTful integrations

**Game Development:** Unreal Engine, C++, Blender, Level Design, Game Documentation

## WEB DEVELOPMENT PROJECTS

**Block Game** | [JavaScript / HTML / CSSLive](#) | [joshuamcolon.github.io/Block-Game-Project](https://joshuamcolon.github.io/Block-Game-Project)

- Built an interactive browser-based block game using vanilla JavaScript with game state management, collision detection, and dynamic rendering.

**Weather Dashboard App** | [JavaScript / HTML / CSS / APILive](#) | [joshuamcolon.github.io/Weather\\_Dashboard\\_App](https://joshuamcolon.github.io/Weather_Dashboard_App)

- Developed a real-time weather application consuming a third-party API, displaying dynamic data visualizations and location-based forecasts.

**React Resume** | [ReactJS / CSSLive](#) | [my-website-one-jade.vercel.app](https://my-website-one-jade.vercel.app)

- Designed and deployed a fully responsive personal resume as a React single-page application, hosted on Vercel.

**Task Manager** | [JavaScript / HTML / CSSLive](#) | [joshuamcolon.github.io/task-manager](https://joshuamcolon.github.io/task-manager)

- Created a full CRUD task management web app with local data persistence, dynamic DOM manipulation, and responsive layout.

**Portfolio Website** | [HTML / CSS / JavaScript / Swiper.jsLive](#) | [joshuamcolon.github.io/portfolio-project](https://joshuamcolon.github.io/portfolio-project)

- Built a multi-section responsive portfolio featuring animated Swiper.js carousels, dark/light theme toggle, EmailJS contact form, and ScrollReveal animations.

## PROFESSIONAL EXPERIENCE

**United States Army** | *Senior Human Resources Specialist* Apr 2022 – Nov 2025

- Collected, cleaned, and maintained data systems for 500+ personnel with zero discrepancies across all audits and compliance reviews.
- Built and maintained statistical tracking systems, identified trends, and generated reports to support leadership decision-making.
- Monitored KPIs and compliance metrics for benefits and medical enrollment, flagging anomalies and ensuring timely resolution.
- Communicated findings and administrative updates to personnel and leadership across in-person, phone, and written formats.
- Managed high-volume data caseloads across multiple systems, maintaining strict accuracy under tight deadlines.

**United States Army** | *Parachute Rigger / Logistics & Administrative Support* Mar 2017 – Apr 2022

- Processed and verified onboarding and enrollment data with high accuracy across multiple locations and compliance portals.
- Identified data workflow inefficiencies and implemented process improvements, improving scheduling efficiency by 30%.
- Maintained organized, confidential records and coordinated with vendors to track, clean, and validate operational data.

**United States Marine Corps** | *Aviation Operations Specialist* Jul 2011 – Jul 2015

- Managed sensitive personnel files, qualification records, and compliance documentation in a fast-paced operational environment.
- Supported audits by preparing structured documentation and data summaries aligned with regulatory requirements.
- Coordinated across regions to track operational progress, resolve data discrepancies, and ensure record accuracy.

## KEY ACHIEVEMENTS

---

- Maintained zero-discrepancy data accuracy across 500+ personnel records through multiple federal audits.
- Improved scheduling and coordination efficiency by 30% through streamlined data tracking and process improvements.
- Deployed 5 live web applications demonstrating full-stack development skills across frontend, backend, and database layers.
- Earned 4 professional certifications in HTML/CSS, JavaScript, ReactJS, and MySQL through ERA Academy (COITB) in 2025–2026.
- Repeatedly recognized for professionalism, reliability, and precision in high-pressure, compliance-driven environments.

## EDUCATION & CERTIFICATIONS

---

**Bachelor of Science, Game Design** — Full Sail University (2022–2024)

**Bachelor of Science, Software Engineering (In Progress)** — Western Governors University

**Full-Stack Web Developer Certification** — ERA Academy (COITB) (2025–2026)

- Certified: HTML/CSS Web Design | JavaScript Professional Developer | ReactJS Framework Developer | MySQL Backend Developer

**12+ years U.S. Army & Marine Corps training:** Data management, administrative operations, compliance, records integrity, and leadership.
